

# *McLean Art Society*

## *Interest & Our Work*

The McLean Art Society, originally named The McLean Art Club, was founded in 1956 by local artists interested in supporting art and encouraging and facilitating its expression. Toward that endeavor the organization has sponsored juried shows at local sites including The McLean Community Center where they meet monthly, Green Springs, River Bend Park, the annual McLean Art Fair, and by invitation at private venues. Previous exhibits have also been held at The Children's National Medical Center with 20% of sales returning to the facility, early on at the Tyson's Development Authority, the Packard Center and Abbott Galleries, the Dolley Madison Library and many others. There is also a teaching component with well known artists employed to demonstrate techniques at monthly meetings. Guests are always welcome! The membership includes many artists who are award winners in local art shows and have been juried into the Virginia Watercolor Society Show and some who have achieved National recognition with further participation and awards.

We propose to select a variety of subject matter, medium, and styles from our artists for display. All works are artistically prepared and framed and to meet the best display standards and are of award level quality. We look forward to working with you in the presentation of the best of our community.
